Presentation of Graduands and Diplomandi
Professor R Rathilal
Interim Executive Dean: Faculty of Engineering and the Built Environment

Conferment of Degrees and Diplomas
Ms N Nyembezi
Chancellor

Congratulatory Message and Vote of Thanks
Professor TZ Mthembu
Vice-Chancellor and Principal

National Anthem
The Durban University of Technology Chorale

Dissolution of the Congregation
Ms N Nyembezi
Chancellor

MESSAGE FROM THE CHANCELLOR

Ms Nonkululeko Nyembezi

Sanibonani and good day to you.

My name is Nonkululeko Nyembezi and I am the Chancellor of the Durban University of Technology.

By the powers vested in me as Chancellor, I now constitute this virtual graduation event for the Durban University of Technology.

Congratulations to Ms Thembi Mtshali-Jones, who will be receiving an honorary doctoral degree, Doctor of Philosophy in Visual Arts in the Faculty of Arts and Design. Thembi Mtshali-Jones is a multitalented, celebrated artists as a singer, actress, producer and playwright.

Ms Mtshali-Jones is currently one of the leads in Imbewu where she stars as MaNdlvou. Imbewu, The Seed was produced for ETV and has been awarded the fastest growing TV drama. We welcome Ms Thembi Mtshali-Jones to the DUT family.

Congratulations to our newest alumni, the graduating class of 2021. You have accomplished an enormous amount and you have even greater potential than when you began your studies here at the Durban University of Technology. You have earned your qualification and you have accomplished so much.

For some, you will be earning your undergraduate degrees, for others, this will mark the culmination of your postgraduate and professional degrees. For all of us though, I am fully aware that our actions to prevent the further spread of COVID-19 may have caused a disruption to this special occasion. I am as heartbroken as you are that your graduation from the Durban University of Technology has been impacted by this global pandemic.

It is my utmost wish that you remain connected with your lecturers, your friends and your classmates. Remain steadfast, as I am in the knowledge that your DUT education and the relationships you made, the learning you achieved and the experiences you had during your time at DUT will serve you well in the years to come.

You are DUT for life.

MESSAGE FROM THE VICE-CHANCELLOR AND PRINCIPAL

Professor Thandwa Mthembu

On behalf of DUT people, I take this opportunity to congratulate you on your important personal accomplishment. We recognize that this milestone carries with it important meanings, part of which suggests you have maintained the discipline of your thoughts and behavior characteristic of DUT people. Without the requirement of discipline, this day may not have been possible for many of you. For this reason, I dare say that the very discipline you have demonstrated thus far will carry you through your next personal growth trajectories, ranging from further studies, starting a career, starting your own business to even starting a family.

To borrow from Jim Collins, a combination of a culture of discipline and an ethic of entrepreneurship produces *"the magical alchemy of great of performance"*. We, thus, have no doubt that focused and disciplined as you were during your studies, and with DUT entrepreneurial flair we have been instilling over a number of years now, you will be greatly successful in your pursuits.

More especially over the last few years of study at DUT, you would have appreciated the strategic approach, outcomes and impacts of our teaching-learning and research-innovation philosophy. We have sought to position DUT as a university of and for its broader society. We exist because our people must use their individual and collective creativity, innovation and entrepreneurial flair to solve perennial and new problems our broader society faces. Solutions to these must contribute towards improving the lives and livelihoods in our society. Through our *'Innovative Research and Curricula'*, we expect you to become a model DUT *'Adaptive Graduate'* who will unleash your creativity and imagination to become the source of change and advancement. By 2030 we will be a vanguard of that change and advancement in society. We see you as an equal partner in this historic voyage we have just embarked upon.

Your graduation coincides with a myriad of challenges confronting the world, the African continent and South Africa as a nation. We do not expect you to feel sorry for yourselves or mourn the persistence of these problems. As DUT, we have accepted Pascal Finnete's assertion that people are a source of everything that happens across all institutions of society. This means that it is people who are behind the problems we know. Similarly, we know that it is a different type of people who contribute ideas that will lead to lasting solutions. In the recent past, I said the following when unpacking the Stewardship Perspective of ENVISION2030:

It is about being true and selfless stewards of everyone and everything we are custodians of. It is about our deep conviction and purity of character in our collective quest to reach our ultimate goal. It is about something deeper, irreducible, somewhat intangible, that will sustain us on a flight to greatness. Allow me to say Stewardship is essentially our compass towards our ultimate and shared destiny of greatness.

As a DUT graduate, you should enthusiastically contribute towards the lives and livelihoods of all our people. In everything you do and will do onwards, may you demonstrate DUT's DNA and the DUT-Way. May you live all DUT's Values and Principles as part of your way of life. That way, you will stand out and be seen to be a distinctive DUT graduate that all will wish to associate with, perhaps employ and perhaps partner with on big and innovative projects.

We wish you all the best in your future endeavours. Become the change you have always yearned for.

MESSAGE FROM THE PRESIDENT OF CONVOCATION

Ms Zama Mncube

As the newly-elected President of Convocation, I'd like to take this opportunity to congratulate each of you, on this momentous achievement.

As the Graduating Class of 2021, having endured the majority of your studies while going through a worldwide pandemic with its concomitant effects, you were challenged and tested in these difficult times. Yet here you are – celebrating one of the most joyous events in your life – your graduation! Your hard work and dogged determination is what steered you towards this path of fulfilling one of the many goals you will set for yourself.

This chapter of your life may have closed, but you are now open to a world of possibilities. Seize the opportunities that come your way and work towards a better life, while contributing towards improving your communities and the broader society. You are equipped with a qualification from DUT which is your passport to creating the future you want and leaving an indelible mark.

As you celebrate this great achievement, let us pay homage to those that have made sacrifices to ensure you fulfil your potential as a contributing member of society. I encourage you to consider staying in touch with your Alma Mater and actively participate in the various programmes and initiatives open to Alumni at DUT. Where possible, understanding that you are recent graduates and thus still finding your feet in the world of work and business, there are many students who still require financial support towards their studies and thus would appreciate any assistance in this regard. To make a donation, or if you know of individuals or organisations that can assist in this regard, kindly get in touch with the Advancement and Alumni Relations Office on the details below or to make a donation, go to the website, **www.dutalumni.com** and click on "Ways to Give". Select one of the three payment options. It is that easy.

We hope that you have created fond memories during your time at DUT. We look forward to welcoming you back should you choose to continue with postgraduate studies, which further enhances your skills and knowledge in the workplace. We would love for you to keep in touch with us – please regularly update your details so that you maintain your lifelong link with DUT, your *Alma Mater.*

The Graduating Class of 2021 – you have a bright future ahead of you.

Stay safe. Stay blessed.

KHUMALO Zephania Philani

Title of Thesis

Privacy and security for applications and services in future generation smart grids

Summary

The Dissertation focuses on addressing privacy and security in future generation Smart Grids. AS is known, the incorporated ICT subsystem in smart grids facilitates full duplex information flows hence enabling key entities such as generation, distribution, transmission, and end-user subsystems to interrelate in real-time, and in the process, collectively achieving a reliable, resilient, efficient and robust Smart grid power supply system. However, the resulting cyberspace is naturally exposed to various cyber security threats by adversaries and attackers which should be addressed. The resource-constrained nature of associated elements constituting the Smart Grid brings about challenges in implementing robust security measures that inevitably involve the performing of complex crypto-operations. For this reason, any measures in the form of schemes and mechanisms implemented to preserve security and privacy must be lightweight, i.e. they should minimize the generation of computational and communication overheads during operations. In the core contribution, the dissertation proposes and evaluates a Fog-Cloud paradigm-based security framework that balances security guarantees and practical, scalable techniques to provide privacy for real-time implementation. The framework is implemented in two sub schemes namely:

- A Device-to-Device Lightweight Customer Side data Aggregation Scheme that takes into cognizance the fact that most Smart Grid elements are computationally resource-constrained, thus ensures that key messages will be delivered with absolute security guarantees
- A Fog- Cloud-Based Lightweight Authentication Scheme that ensures all aspects of privacy are adhered to. These include mutual authentication, secure data transmission, Session key backward/ forward secrecy device anonymity, traceability and message non-repudiation. The Fog-Cloud paradigm also ensures minimized turnaround times.
