DIPLOMA IN FINE ART

01 JAN - 31 DEC 2022

Diploma in Fine Art

NQF Level: 6

SAQA ID: I00802

**Qualification Code: DIFARI (Mainstream)
DFAFI (ECP)**

Location: City Campus

Description of the Programme

The programme is designed to develop the learners' unique creative talent and understanding of the role art plays in the world through a variety of disciplines.

Since its establishment in 1884, the Fine Art Programme at the Durban University of Technology has maintained its position as one of the best in Southern Africa. It is proud of its students who have gone on to excel in their chosen fields, the high standards set by the staff, all professional artists in their own right and of the excellent facilities that the department has to offer.

The programme is offered full-time and the department is situated on the City Campus (Painting, Printmaking, Drawing and Art Theory) as well as at the ML Sultan Campus (Sculpture and Ceramics).

The programme is organised on an incremental basis, the first three years lead to the award of a Diploma in Fine Art. After the first year of study, you may choose to specialise in two of the studio subjects, supported by courses in Art Theory and General Education.

The programme is designed to develop your unique creative talent and understanding of the role art plays in the world through a variety of disciplines: these include Drawing, Painting, Sculpture, Printmaking and Ceramics.

Alongside these studio subjects the study of Art Theory and Communication sets out to develop your understanding and familiarity with the traditions of art and the exciting and at times challenging contemporary scene. Entrepreneurial Studies and Professional Practice prepare you for entry into the world of the working artist whether as an exhibiting artist, craftsperson, community art officer, gallery curator, designer or teacher.

All students are provided with the opportunity to serve the community through practical community work

Duration

This programme is offered on a full-time basis for three years.

Career Opportunities

The field is diverse and challenging. On completion of the programme, the student will be qualified and prepared to embark on a career as a professional artist working individually from a private studio or in collaboration with other artists to produce work of exhibition standard for galleries and collections of fine art throughout the country.

A recent survey has indicated that most of our past students have been gainfully employed as self-employed professional artists or within the educational or design fields as lecturers, technical art advisors, textile designers, gallery assistants, illustrators, advertising designers and visualizers.
