DIPLOMA IN INTERIOR DESIGN

01 JAN - 31 DEC 2022

Diploma: Interior Design

NQF Level: 6

SAQA ID: 111012

Qualification Code: DIINDI

Location: City Campus

Description of the Programme

The Department has a proud tradition of educating students for Industry and the high calibre of our students has been recognised both nationally and internationally.

An Interior Designer is responsible for the structural planning and aesthetic imaging of corporate, retail, commercial and domestic interiors such as restaurants, shops, exhibition stands, bars, hairdressing salons, offices, hotels, function rooms, private homes etc.

The professional is involved in the total design of these areas and therefore requires a considerable knowledge of all technical aspects such as lighting, air-conditioning, plumbing, construction methods, as well as internal finishes and furniture selection.

As Interior Design is closely related to the world of changing trends, the designer must also have a knowledge of past, current and future fashions and styles.

The designer may also be involved in the design of domestic architecture for which he/she would require a knowledge of planning and of building construction methods.

The designer is responsible for producing the design concept and then following through with the working drawings, contract administration and supervision of the installation.

He/she would associate and work closely with architects, quantity surveyors, various consultants, building contractors, shop fitters, subcontractors and a variety of manufacturers and suppliers.

Duration

This programme is offered on a full-time basis for three years

Working Conditions

Planning and designing begin in the studio, at the drawing board, the computer and in model building work areas. The designer has to be well informed on new trends and sourcing new products, which will result in time being spent away from the office. Once the building operation has commenced, he/she may also be required to visit the site for supervision purposes, or for site meetings with the client, architect and contractor.

Personal Qualities Required

The Interior Designer must have drawing ability, an awareness of current trends and an eye for detail, but more importantly must have a strong creative imagination and an ability to communicate his/her ideas visually and verbally. All these aspects are covered in subjects throughout the course using the latest technologies including CAD. Interior Design is related to the building industry and the designer would benefit by having an aptitude for the technical aspects.

Career Opportunities

Interior Design and decorating firms, architectural practices, retail and exhibition designers, shop fitters, office furniture companies and product designers offer employment opportunities. The graduate may also act as a consultant and establish a private practice.

Although the field is highly competitive and the demand is strongly influenced by current trends in the building industry, there is a real need for local Interior Designers.

Additional Entry Requirements:

To be considered for Interior Design interviews, you must choose Interior Design as your first or second choice when applying through CAO. The NSC subjects, Visual arts, Design and Engineering, Graphic and Design are recommended subjects but are not prerequisite. Students are selected on the merits of a portfolio (10 original drawings not copied from photographs) in pencil, pencil crayon or other mediums (e.g., ink, pastels, magic marker), and undergo a personal interview and complete a drawing test, as well as a written questionnaire.

Please note that this programme will only consider 1st and 2nd choice applicants.

The portfolio is to consist of a minimum of 10 original drawings NOT copied from photographs, in pencil, pencil crayon or other mediums (e.g., ink, pastels, magic marker) comprising of:

- Architectural details e.g., Column capitals, entrance doors, windows, etc.
- Furniture e.g., chairs tables, period pieces, etc.
- Ornaments e.g., lamps and vases
- Manmade objects e.g., shoes, hats, briefcase, etc.
- Mechanical objects e.g., Keys, eggbeater, kitchen equipment, etc.
- Natural forms e.g., flowers, shells, etc.
- Technical Drawings (any technical/construction drawings showing draughting, if taught at school)

Drawings should be on paper and should be submitted in a folder (at the interview), with the applicant's name clearly **HAND LETTERED on the front. The applicant's name should appear on every drawing.**
