DUT SCHOLARSHIP POLICY

1. UNDERGRADUATE SCHOLARSHIP: FIRST YEAR STUDENTS

This award is made to first year full-time and part-time students, studying at DUT who have obtained excellent results in the National Senior Certificate, which takes the form of a tuition fee remission as follows:

- 1.1 A first year student who has obtained a National Senior Certificate with an aggregate of 80% or higher shall qualify for a 100% remission of tuition fees for the first year of registration (subject to 1.3 below.)
- 1.2 A first year student who has obtained a National Senior Certificate with an aggregate of between 70% - 79% shall qualify for a 75% remission of tuition fees for the first year of registration, (subject to 1.3 below).

Important Notes

- 1.3 The calculation of the aggregate percentage is made by the DUT, and is based on the sum total of the percentages achieved for individual subjects (excluding Life Orientation) divided by the total number of subjects taken. Where a student has taken more than seven subjects, the aggregate percentage of the six highest subjects (excluding Life Orientation) is calculated.
 - 1.4 Only students who have obtained the National Senior Certificate in one sitting would qualify for this award. Subjects for which 'exemptions' are granted towards the National Senior Certificate will not be eligible for this award.
 - 1.5 The onus is on the student to establish whether he/she qualifies for a remission of fees at the time of student registration.
 - 1.6 Should a recipient of the scholarship deregister (withdraw) from studies in the year for which the scholarship is granted, the full scholarship becomes payable to the institution.
 - 1.7 Students who require and obtain exemption/s for admission to a DUT programme will not be eligible for this award.
- ## 2. UNDERGRADUATE SCHOLARSHIP AWARD SCHEME AFTER YEAR/SEMESTER 1

This award is given to full-time and part-time, second and later year/ semester students who obtain excellent results in the various levels of undergraduate study, and takes the form of a tuition fee remission as follows:

- 2.1 A returning student who achieved all distinctions as final results for all instructional offerings for the previous year/level of study on the first attempt, and provided that the full curriculum was taken and passes, shall qualify for a full remission of tuition fees(100%) for the subsequent higher level of study.
- 2.2 A returning student who has achieved an overall pass with distinction (average of 75% and above) for the previous year/level of study on the first

attempt and provided that the full curriculum was taken and passed, shall qualify for a remission of 50% remission of tuition fees for the subsequent higher levels of study.

NB: Performance in the Experiential Training Component is not considered in the above cases.

Explanatory Notes

2.2.1 The term 'subsequent level of study' as used in this policy, shall mean:

the subsequent year of study, if the student is pursuing an annual course of study.

the first semester following the final examination in which the student obtained the qualifying distinctions/overall pass with distinction for all the instructional offerings, if the student is pursuing a semesterised course of study.

(To qualify for the remission of fees for the second semester, the student must achieve the qualifying distinctions/overall pass with distinction for all the instructional offerings in the first semester.)the semester following the co-operative education or experiential training component, in the event that a student is placed in industry for this purpose at the beginning of the year/semester following the final examination in which the student obtained the qualifying distinctions/overall pass with distinction for all the instructional offerings.

Should a student achieve the qualifying distinctions/overall pass for the third year or final semester of the national diploma, such a student is entitled to a remission of fees for the B-Tech programme for that year/semester provided the student registers for the full curriculum of the B-Tech programme on a full time and part-time basis.

PLEASE NOTE: B-Tech students who register for part of the programme i.e. part-time over two years are only entitled to the remission of the part-time tuition fees for the first year/semester of study if he/she qualified for the award in his/her third year.

For students who receive qualifying distinctions/overall pass with distinction for all instructional offerings in the B-Tech programme, the student is advised to contact the Research Department to enquire about further incentives for the M-Tech programme.

2.2.2 Should the student register for a combination of semester and annual courses in the subsequent level of study, the remission shall apply to the annual courses and to the first semester of the subsequent level of study only..

(To qualify for the remission of fees for the second semester, the student must achieve the qualifying distinctions/overall pass with distinction for all the instructional offerings in the first semester.)

- 2.2.3 The onus is on the student to establish whether he/she qualifies for a remission of fees at the time of student registration.
- 2.2.4 'Exemption' subjects do not qualify for the purposes of determining whether a full curriculum is taken, whether such exemptions are granted from the DUT or any other institution.
- 2.2.5 Students who studied at another University /or doing second qualification will not qualify for remission of fees .
- 2.2.6 Should a recipient of the scholarship deregister (withdraw) from studies in the year/semester for which the scholarship is granted, the full scholarship becomes payable to the institution.

NB: The remission of tuition fees for each of the awards detailed above excludes any additional costs e.g. breakages, experiential training etc.

6. MERIT AWARD FOR STUDENTS WHO RECEIVE OTHER BURSARIES OR SCHOLARSHIPS

- 6.1 The onus is on the student to declare the receipt of any outside bursaries/loans when applying for a DUT scholarship in the first instance. Failure to do this could result in any future scholarship awards payable to the student being forfeited.
- 6.2 The remission of fees as described in the above awards does not apply to students who are in receipt of any scholarship or bursary (including NSFAS bursaries), which covers the full amount that the student qualifies for in terms of this policy and which is ear-marked for the payment of tuition fees. The student is entitled to secure a loan for the balance of tuition fees owing only. A merit award is made however, to such students who otherwise meet the criteria for a DUT scholarship award, and this shall take the form of:
- 6.2.1 A voucher for the sum of R500 for the purchase of academic textbooks, for:

If the difference is less than the book voucher, the student will qualify for the book voucher of R800.
- 6.2.4 If the student qualifies for less than 100% remission of tuition fees, viz 75% or 50% and receives another bursary, the DUT shall grant a remission that is not more than the amount the student would have qualified for in terms of this student incentive scheme, and this shall also be limited to the difference between the full tuition fee payable and the bursary received by the student. GENERAL RULES FOR ALL INSTRUCTIONAL PROGRAMMES

G1 Definitions:

Act means the Higher Education Act 1997 (Act 101 of 1997), as amended.

Assessment is the structured process for gathering evidence and making judgments, either formative or summative, about a student's performance.

Formative judgments provide the student with guidance on how to improve on their performance prior to final assessment, at which point a summative judgment of pass/fail is made.

A subject which is complementary to another is one for which a student must register and write all test and examinations but not necessarily pass, prior to, or simultaneously with, that other subject.

A co-requisite subject is one that must be passed prior to, or simultaneously with, another subject before a credit will be given for that latter subject.

Council means the Council of the Institution.

A credit is given for every subject in accordance with its importance, its scope and the time to be spent on it. The credit value of each subject is therefore in direct proportion to its scope and is expressed to the third decimal place, e.g. 0,025 credits. A complete full time instructional programme involving a full year's academic study represents one credit.

Equivalent - insofar as it refers within the G-Rules to the admission requirements of the National Higher Diploma, Bachelor in Technology Degree, Master's Diploma in Technology, Master's Degree in Technology and Doctor's Degree in Technology - means a complete or incomplete qualification equal in academic value or academic importance.

A final level subject is one with a SAPSE code ending with 03 for National Diploma, 06 for National Higher Diploma and B.Tech Degree and 07 for M.Tech Degree.

Formal Courses/Instructional Programmes: Senate approved courses/instructional programmes of at least one semester/six months full-time equivalent duration can either be state approved subsidy generating courses/instructional programmes or self-funding approved courses/instructional programmes registered with the national qualifications authority.

The Higher Education Qualifications Framework (HEQF), effective from June 2009, is a policy which specifies the minimum legal aspects of higher education formal qualifications in South Africa and how these qualifications fit within South Africa's overall National Qualifications Framework (NQF).

The formal qualifications offered by the Durban University of Technology (DUT) comply with all legal requirements stipulated by the Department of

Higher Education and Training (DHET). These include their accreditation by the Higher Education Qualifications Council (HEQC) and registration on the NQF by the South African Qualifications Authority (SAQA).

The DUT is in the process of aligning existing formal qualifications with the HEQF. This process is being followed by all South African higher education institutions as a legal requirement and will take these institutions a number of years to complete. DUT gives the assurance that the status and value of DUT qualifications will in no way be adversely affected during this transitional period and beyond.

The Institution refers to the Durban University of Technology.

Institutional Rules means the Rules of the Institution as approved by Senate and/or Council.

A module is a unit of study which:

- (i) is evaluated in a manner determined by the Institution;
- (ii) contributes a certain value to the total credit requirements for the given year/semester of an instructional programme;
- (iii) is started, completed and evaluated in its entirety within part of a year/semester;
- (iv) may have prerequisites; and
- (v) has a credit value which determines when a student has complied with all the requirements of an instructional programme.

Non-subsidised programmes are:

Self-supporting programmes which are offered by the Institution that are not subsidised by the State and have been approved as follows:

- 120 contact hours or less, by Faculty Board;
- greater than 120 contact hours and less than or equal to 360 contact hours, by Senex (via Faculty Board);
- more than 360 contact hours, by Senate (via Faculty Board)

A prerequisite subject is one that must be passed before a student may register for one or more further subjects as specified in any departmental handbook. This includes a subject which continues from one level to the next higher level.

Recognition of Prior Learning (RPL) means the assessment of an applicant's previous non-formal and informal learning and experience to determine the extent to which this meets the required learning outcomes, competency outcomes, or standards for entry or access into a specified level of study at the University. A variety of assessment methods is used to determine the relevance, depth and extent of an applicant's prior learning.

Report 150 means the General Policy for Instructional Programmes of the Department of Higher Education and Training.

Senex means the Executive Committee of Senate.

Statute means the DUT Statute.

A subject is an identifiable unit of study which:

- (i) is evaluated in a manner determined by the Institution;
- (ii) contributes a certain value to the total credit requirements for the given year/semester of an instructional programme;
- (iii) may have prerequisites;
- (iv) has a credit value which is used to determine when a student has complied with all the requirements of an instructional programme; and
- (v) extends over a whole year/semester with a minimum of one contact period per week over the whole year/semester and an examination conducted during a specific examination period at the end of the year/semester (except in the case of continuous assessment). Rule G28 is the only G-Rule applicable to subjects categorized as experiential learning. Refer also to departmental handbooks.

Subsidised instructional programme/subjects are those funded by the State.

G1

- (1) The rules and syllabi which appear in this General Handbook and the Departmental Handbooks are based inter alia on:
 - resolutions of the Senate by virtue of authority given under the Act;
 - the Statute;
 - the Institutional Rulesand except where otherwise stated or prescribed by the Senate, shall be applicable to every student of the Institution.
- (2) Except where otherwise laid down expressly by the rules for an instructional programme or by necessary implication, the General Rules, where applicable, hold good for individual instructional programmes as well. Where a General Rule and a Department Rule deal with the same matter, the more limiting rule shall apply.
- (3) The Council may enter into agreements with other bodies to offer qualifications and/or the tuition leading to qualifications. Any special rule which is a requirement of such an agreement is specified in the rules of the instructional programmes of the Faculty/ies concerned. (Faculty is interpreted as an aggregation of departments.)
- (4) The Senate may revise or add to its rules from time to time and any such alteration or addition shall become binding upon publication of the Institution's General Handbook for Students or upon such date as may be specified by the Senate, provided that no change in rules shall be interpreted to operate retrospectively to the prejudice of any currently registered student.
- (5) All rules applying to an instructional programme when a student registers for that instructional programme shall remain in force and effect for as long as the student remains registered for every consecutive year/semester thereafter for that instructional programme. For the purposes of this rule, consecutive registration shall be regarded as including periods of experiential learning.

- (6) Notwithstanding Rule G1(6) a student must comply with those rules applicable to a subject at the time the student registers for that subject.
- (7) If for any reason the Institution has omitted to enforce a rule, this shall not be interpreted as a condonation of a breach of these rules and the new Institution shall at all times retain the right to enforce the rule.
- (8) Any student wishing to appeal against:
 - (a) the implementation of an Institutional Rule must do so in the first instance to the relevant Head of Department;
 - (b) the decision of a Head of Department must do so via the relevant Executive Dean to the Faculty Board or a delegated Committee of the Faculty Board. The decision of the Faculty Board or a delegated Committee of the Faculty Board is final and no further appeals will be considered thereafter.

(Amended w.e.f. 2009/01)

 - (c) *(Deleted w.e.f. 2009/01)*

All appeals must be in writing and include a clear motivation as to why the rule/s and/or decision in issue should not be enforced in the particular circumstances.
- (9) Any student wishing to appeal against a decision which is not rule related must follow the steps set out in the "Process for dealing with student issues" included at the end of these rules.

(Inserted w.e.f. 2013/01)

G2 ELIGIBILITY AND REQUIREMENTS

Subject to the provisions of the Act, and the rules contained herein, the Senate shall make rules for each instructional programme, relating to:

- (1) the eligibility of a person to register as a student at the Institution for each certificate, diploma or degree as approved by Senate;
- (2) the period of attendance; and
- (3) instructional programme, work and other requirements which shall be complied with in order to qualify for each certificate, diploma or degree.

- (3) No person shall attend any instructional programme offered by the Institution, submit any work for assessment or use the Library or other facilities or property of the Institution, unless the person has registered as a student.
- (4) (a) Except with the prior permission of the Senex, no student shall be registered simultaneously for more than one instructional programme and/or at another institution.
- (b) If a student is granted such permission, it should in no way be implied that exemption, as envisaged in Rules G8 and G9 respectively, will automatically be granted by the Institution. Furthermore should a clash in examination dates and times occur between the Institution's examination timetable and that of the other institution, the Institution's timetable must take precedence.

- (5) (a) The registration of a student shall be considered to be provisional if the student's entrance requirements are:
- (i) subject to compliance with Rules G8, G9 and/or G10.
 - (ii) subject to delay in the publication of the results of the immediately preceding examination; such delay not to exceed one calendar month after the student's registration;

This applies irrespective of the fact that the Institution has erroneously or negligently registered the student unconditionally; or
 - (iv) still to be verified by checking of the relevant original certificate, diploma or degree, by and to the satisfaction of the Institution.
- (b) Provisional registration shall become unconditional registration when the student has complied with all the outstanding requirements as dealt with in Rule G3(5)(a) within the period stipulated by the Institution.
- (c) Provisional registration shall be cancelled if the student fails to comply with the outstanding requirements as dealt with in Rule G3(5)(a), within the period stipulated by the Institution.
- (d) A provisionally registered student shall be permitted to write the examinations provided the stipulated period for such provisional registration has not expired (Rule G3(5)(c) refers). No credit for any subject passed will be given until such time as the outstanding requirements have been complied with.
- (6) A registered student is entitled to further register at the Institution for a subject(s) which is/are additional to the requisite number of subjects for the student's current year/semester of study as determined by the Institution provided that:
- (a) in the case of clashes in the lecture timetable, the student registers only at the discretion of the Head of Department of the relevant instructional programme, and then by mutual written agreement;
 - (b) there is no examination timetable clash;
 - (c) the student, before enrolling for such subject(s), obtains the written approval of all relevant heads of academic departments, including the Head of Department for the student's current instructional programme;
 - (d) the relevant subject fee(s) is/are paid by the due date;
 - (e) such subject(s) will be deemed subject(s) taken for non-certificate/diploma/degree purposes and may never become part of any instructional programme (Rule G7(6) refers).

- (7) The Senate reserves the right to cancel an advertised class, to discontinue an instructional programme and, in the event of insufficient enrolment for an instructional programme, to de-register those students who have registered for it for the first time in the current academic year/semester.
- (8) A student who was formerly, or is currently, registered for a qualification at any other educational institution and, before completing the requirements towards such qualification, wishes to register for an instructional programme towards a qualification at the Institution, must produce, to the satisfaction of the Institution, a "certificate of conduct" from that other educational institution before being permitted to register.
- (9) Only registered students may nominate, be nominated, vote or hold office for/on the SRC.

For the purposes of nominating or being nominated, voting and holding office on the Students Representative Council (SRC), a registered student is any student who has been registered for at least one semester in terms of the provision of Rule G3(1) for a formal instructional programme recognised by the Senate as of a standard at least equal to that of a programme in respect of which any State subsidy is granted or may be granted.

(*Inserted w.e.f.2011/01*)

If the student passes the examination or the supplementary examination, the student's registration in the next higher level shall be deemed unconditional.

If the student fails the examination or the supplementary examination, the student's registration for the next level subject shall be cancelled.

STUDENT CODE OF CONDUCT

SR1 STUDENT RIGHTS AND THE BOUNDARIES OF ACADEMIC FREEDOM

(1) PREAMBLE

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general wellbeing of society. Within the boundaries of good academic order, free enquiry and free expression are indispensable to the attainment of these goals. Students, as members of the academic community, should be encouraged to develop a capacity for critical judgement and to engage in sustained and independent search for truth.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. Both these freedoms depend upon appropriate opportunities and conditions in the lecture hall, on the campus and in the larger community. It is the duty of any tertiary educational institution to develop policies and procedures that foster these freedoms. The concept of academic freedom is inextricably interwoven with the concept of responsibility. While students may reasonably expect academic freedom, the society in which they operate has a reciprocal right to demand that such freedom be used responsibly. "Freedom of thought is an absolute right, whereas freedom of action must inevitably be conditional upon the possible harm done to others." (R S Peters) The Institution respects and is determined to protect the individual dignity, integrity and reputation of all persons involved in the activities of the Institution.

(2) ACADEMIC ORDER AND THE BOUNDARIES OF ACADEMIC FREEDOM

The Institution is a South African tertiary institution, and its students shall adhere to the general legal principles of the country. It has a duty towards the State which finances it, the community which supports it and entrusts its youth to it, and the students who depend upon it to give them a viable education.

The Institution shall aim at the highest standards of academic excellence. The Institution shall endeavour to create a climate conducive to its broader education task and to construct the infrastructure necessary for the high ideals stated in the preamble.

The rights and privileges of the students of the Institution are set out in SR2 of this code, while the order system within which such rights and privileges shall operate as well as the Rules for Students are set out in SR3. The various tribunals involved in the order system and the jurisdiction of these tribunals are described in SR4.

(3) INSTITUTIONAL CODE OF ETHICS

The University's Code of Ethics as approved by Council is a statement of the ethical principles, values and behaviours expected of staff and individuals associated with the University. Such persons are required to be careful, honest, responsible and efficient and to avoid impropriety in order to preserve the resources and assets of the University for the public good. The code also seeks to promote the highest standards of scientific and professional integrity and to give due consideration to the ethical issues arising from the activities of the Institution.

(Inserted w.e.f. 2010/01)

SR2 STATEMENT OF STUDENT RIGHTS AND PRIVILEGES

(1) SOME BASIC RIGHTS

(a) Freedom of Expression

Student organisations and individual students shall be free to examine and discuss all questions of interest to them and to express opinions, provided such opinions do not promote violence and/or infringe on the dignity and basic rights of others. They shall be free to support any cause by orderly means which does not disrupt the regular and essential operation of the Institution.

At the same time, it shall be made clear to the academic and the larger community that in their public expressions or demonstrations the students or student organisations speak only for themselves and in no way reflect the official policy or opinion of the new Institution.

(b) Freedom from Discrimination

The Institution does not discriminate against students on any grounds whatsoever in any recognised area of student life. However, those campus organisations that are essentially and avowedly social fraternal groups may limit membership on the basis of sex, while those campus organisations that are essentially and avowedly sectarian may limit membership on the basis of religion.

The Institution operates within the laws of the Republic of South Africa and shall adhere to any law that regulates social life.

(c) Student Rights in the Government of the Institution

As an integral and essential part of the Institution, the student body shall have clearly defined means, which may include membership on appropriate committees and administrative bodies, to participate or make input in the formulation and application of the institutional policy affecting student affairs. The concept "student affairs" shall be interpreted to include all functions that have direct or indirect bearing on student life.

(2) STUDENTS IN THE CLASSROOM

(a) Protection of Freedom of Expression

Students are free to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

(b) Protection against Incompetent Instruction

Students have the right to competent instruction and assessment in the courses for which they have registered. Students who are of the opinion that a lecturer has failed to meet this requirement may, after consultation with the lecturer concerned, take their problem to a higher authority. In this respect students are referred to "Processes for addressing students issues" contained in this Rule Book.

(c) Protection against Improper Academic Evaluation

Students have the right to question, through orderly procedures, the academic evaluation to which they are subjected.

(d) Protection against Disclosure

Information about students' views, beliefs and legal political associations which lecturers acquire in the course of their work as instructors, advisers and counsellors are considered confidential. Judgment of ability and character may be provided under appropriate circumstances, preferably with the knowledge or consent of the student.

(3) THE STUDENT AS CAMPUS CITIZEN

(a) Student Government

The student body has the right to form and democratically elect governing bodies as a means of participating in discussion of issues and problems and to act on behalf of the students. Such bodies shall function as representatives of the students within the Institution structure.

The electorate of the Institution's students shall consist of the entire registered student body.

(b) Student Organisations

(i) Freedom of Student Association

Subject to the Institution's regulations and the general laws of the country, the students are free to organise and join organisations in order to promote their common and lawful interests. There shall be no discrimination against a student because of membership in any student organisation.

(ii) Registration, Recognition and Disclosure

All student organisations shall be registered and recognised in accordance with the Institution regulations. Registration or

recognition may be withheld or withdrawn from an organisation which violates the Institution regulations. Registration and recognition procedures shall require identification of responsible officers and all members.

(iii) Use of Campus Facilities

Meeting rooms and other campus facilities are available, on an equitable basis, to all registered student organisations, as far as the primary use of these facilities for other Institution purposes permits and is in keeping with the best interests of the Institution.

(c) Student Sponsored Forums

Within the framework of academic freedom as spelled out in Section I, students have the right to assemble, to select speakers and to discuss issues of their choice. The use of Institution facilities for such assemblies requires certain procedures to be followed which are aimed solely at orderly scheduling and adequate preparation for events.

(d) Pamphlets, Petitions and Demonstrations

Within the framework of academic freedom as spelled out in Section I, student organisations and individual students have the right to distribute pamphlets, collect names for petitions and conduct orderly demonstrations, provided these actions are not disruptive of normal Institution functions, or do not encompass the physical takeover or occupation of buildings or parts of buildings without the prior authorisation of the Institution, whether or not other functions are performed in them at that time. At no time shall the students' rights to dissent and protest be exercised in such a manner as to infringe on the rights or privileges of other students, which includes the right to attend lectures, hold their own meetings or hear another speaker.

(e) Student Publications and Media

The student press and media, while being governed by the canons of responsible journalism, shall be free from censorship and advance approval of copy.

Editors and managers of student publications or broadcast stations are free from arbitrary suspension and removal because of student, staff, administrative, or public disapproval of editorial policy or content. Any removal of such officers shall be deemed a form of disciplinary action and therefore subject to prescribed due process in disciplinary cases. The agency responsible for the appointment of editors and managers shall be the agency responsible for their removal.

All Institution-published and Institution-financed student publications shall explicitly state on the editorial page that the opinions there expressed are those of the publication and are not necessarily those of the Institution or the student body.

SR3 REGULATION OF STUDENT LIFE ON CAMPUS

(1) THE ENACTMENT OF REGULATIONS

The Institution respects and is determined to protect the dignity, integrity and reputation of the individual. At the same time it requires that students comply with those conventions and regulations of the Institution life which it feels are necessary to maintain order, to protect individuals and property and to fulfil its purposes and responsibilities as a tertiary academic institution. To this end the Institution realises that the prevailing rule in matters of student discipline must continue to be that of common sense and the audi alteram partem rule. The Institution's regulations are intended to formalise general standards of student conduct and will come into effect only after approval by Council on recommendation of appropriate committees on which the student body shall be represented by its Student Representative Council.

The Institution's regulations do not contemplate specialised regulations or rules governing academic, business or contractual matters, or rules or regulations published by administrators, students or staff for the control of facilities or programmes, such as those not normally submitted to Council for approval. Generally understood standards of conduct, such as respect for the persons and property of others, continue to apply and may form the basis of disciplinary action though nowhere specified in particular detail.

It is the general intention of the Institution to bring students into active participation in the formulation of Institution regulations and to encourage the inclusion of students as active participants in the formulation of those regulations to the extent that such involvement can be accomplished reasonably and practicably.

(2) STANDARD OF FAIRNESS AND STUDENT RIGHTS IN DISCIPLINARY CASES

Certain procedural rights are guaranteed to a student in any Institution disciplinary proceeding in which the student stands to bear a significant injury, such as expulsion, suspension or recorded reprimand. A student subject to such disciplinary action is in danger of injury to that student's reputation, opportunity to learn and earning power. Following an alleged act of misconduct and until final disposition of the charges, the status of a student shall not be altered nor the student's right to be present on campus and to attend lectures suspended, except for reasons relating to the student's physical or emotional safety and wellbeing or for reasons relating to the safety and wellbeing of other students, staff, or Institution property, or for reasons relating to the protection of the normal functions of the Institution.

Changes of the status of a student that are not disciplinary in character and intended neither as punishment nor as censure, but required by administrative, academic or security interests of the Institution and its

community, are not governed by these disciplinary procedures. A list of basic rights of students in any disciplinary proceeding is set out below:

- (a) The right to notice on charges whenever formal action upon such charges is initiated, such notice to be given within a reasonably prompt period and with sufficient particularity as to the facts that the student may reasonably investigate the charge and prepare a defence, with reasonable and appropriate recesses and continuances being provided to all parties.
- (b) The right to confront and cross-examine any witnesses appearing against the student, to produce witnesses on the student's own behalf, to present evidence, to know prior to hearing the contents of and the names of the authors of any written statements which may be introduced against the student, and to rebut unfavourable inferences that may be drawn from such statements. The right not to be compelled to be a witness against oneself or to have one's silence taken as an indication of guilt.
- (c) The reliance upon evidence shall be determined on the balance of probabilities. However, rules of evidence in courts of law shall not as such be strictly enforced.
- (d) The right to be accompanied and represented in all procedures by an advisor of the student's own choosing.
- (e) The right to have a public hearing unless the hearing body's reasonable determination is that a public hearing would unduly and adversely affect the proceedings.
- (f) The right to appeal against decisions to a higher authority or hearing body within the administrative processes provided.
- (g) The right to have one's case processed without prejudicial delay.

(3) RULES FOR STUDENTS

Every student, by signing an accommodation declaration and/or an official registration form for study of whatever nature at the Institution, becomes subject to all the rules of the Institution as approved by the Council and liable for any proven offence committed whilst a registered student.

- (a) Offences which could result in disciplinary action include, inter alia, the following:
 - (i) any act or omission which constitutes or amounts to a common law or statutory crime;

Furthermore, a student shall not:

- (b) When a student is ordered by a member of staff or a member of the Students' Representative Council or a member of a house committee of an Institution residence who believes on reasonable grounds that the student concerned is about to commit, or is committing, or has recently committed, an act amounting to a breach of discipline or misconduct, whether within or without the precincts of the Institution, the student shall:
- (i) give the student's name, Institution address and home address; and

- (c) Students shall also acquaint themselves with and comply with such rules as are prescribed and published in writing from time to time in respect of the following:

By virtue of the powers invested in him, the Vice Chancellor may request any member of staff to assist him in the execution of his/her duties, which includes the maintenance of discipline and order in the Institution. The officers and tribunals described in this document are thus appointed and constituted by the Vice Chancellor and any powers that these officers or tribunals have by virtue of this document are delegated to them by the Vice Chancellor. If the lecturer, in conjunction with the relevant Head of Department, decides to report the matter, this must be done to the Prosecutor of the Student Disciplinary Tribunal. The student concerned may attend further lectures pending the finding of the Student Disciplinary Tribunal. However, if during this time, the student allegedly commits any further breach of discipline or act of misconduct during a lecture, which is similarly reported to the Prosecutor of the Student Disciplinary Tribunal, the student may, at the discretion of the Council, be refused entry onto any Institution campus pending the finding of the Student Disciplinary Tribunal.
